EDUCATION

•Bachelor of Science and Engineering(Software Engineering)

2024-28

Fast National University NUCES, Karachi

PERSONAL PROJECTS

•Full Stack Quiz Application

Developed a full-stack quiz application using Firebase for authentication and database management.

- Features include a responsive user dashboard, leaderboard, and real-time score tracking
- Deployed on Vercel for optimal performance, high order security.
- Technology Used: Html, Javascript, Bootstrap. Css

•Salt And Pepper Clone website

Salt and Pepper Clone Website Built using HTML and CSS, this project replicates the design and layout of the Salt and Pepper website.

- This project highlights clean, organized code and effective use of HTML and CSS for structure and styling. It's a demonstration of attention to detail in web design and a commitment to building responsive, user-friendly webpages.
- The aim was to recreate a visually appealing and responsive interface that captures the look and feel of the original site while honing my frontend development skills

•Guess Random Number Game

Developed an interactive number-guessing game using HTML, CSS, and JavaScript

- Features include easy and hard modes, sound effects, and hint-based feedback
- Deployed on Netlify for seamless user experience

MINI PROJECTS

•Todo application

Saylani mass IT Training

- Todo Application developed using Node.js, Express.js, and MongoDB! Through this project, I built RESTful APIs, handled full CRUD operations, and connected the backend to a real database.
- It was an amazing learning experience that strengthened my skills in backend development and database management.
- Grateful for how much I learned during this journey, and looking forward to building even more powerful applications ahead!

•Olx Clone Website

- This project boosted my confidence in Frontend development and fueled my passion to build even bigger and better applications!.
- Learned basics of Development & Cloud Security.

TECHNICAL SKILLS AND INTERESTS

Languages: C/JAVA, Python, Javascript, HTML+CSS

Libraries : CSS , Tailwind , ReactJs

Web Dev Tools: Nodejs, Express.js, VScode, Git, Github

Frameworks: ReactJs

Cloud/Databases:MongoDb, Firebase, Relational Database(mysql)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

Areas of Interest: Web Design and Development, Cloud Security.

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

POSITIONS OF RESPONSIBILITY

•On PROCOM Volunteer Fast University Procom/Devday Event , Karachi

March 2025

- Helped to attract close to 300 attendees to the event.
- Participated in web development Hackathon
